This fascinating course is a rare chance to be guided from absolute beginner to confident painter in acrylics under the guidance of a professional artist and tutor. Paul uses all his years of experience to take the students on a journey to discover the delights of handling this most versatile of mediums in all its forms. From preparation and choosing the right equipment to the basics of colour mixing and painting techniques, the course aims to give all the students a chance to explore the special nature of acrylic in a step by step sequence. Each step is designed to build up both painting skill and personal confidence so that after two sessions of tuition students can produce a picture to be proud of. The third week introduces other useful materials such as retarder gels, flow mediums and varnish while exploiting the sticky glue like qualities of acrylic to include 3D texture like sand, card, wood and rice in more exciting and adventurous ways.
